

TRELLIDOR

IS YOUR BUSINESS SECURE?

Description:

The Trellidor is a fully framed security barrier constructed with a trellis design, positively located within a securely anchored frame, suitable for expandable applications (where access is required). This design creates a strong physical barrier and formidable deterrent.

Details:

Trellidors are top hung to ensure smooth operation, with low friction and minimal maintenance and are made of galvanized steel. A unique patented lock system is used. Trellidor stacks away neatly to 15% of the original size to optimize space.

Finish:

Powder coated either white or black as standard
